PROFESSIONAL EXPERIENCE

Senior Customer Support & Operations Specialist (Team Leadership Duties) — Waves (Chalet & Yacht Rental Platform, Kuwait)

Apr 2025 – Present | Remote / Kuwait & GCC

- Reduced Average Handling Time (AHT) by 45 seconds by optimizing cross-channel workflows and improving operational handling processes, supporting faster resolution and higher team productivity.
- Sustained a 94% First Contact Resolution (FCR) rate across digital customer support channels while contributing to an increase in the platform/app rating from 3.8 to 4.5.
- Resolved approximately 95% of critical customer escalations, protecting customer satisfaction and reducing potential impact on brand reputation.
- Reduced operational process deviations by 30% through stronger SLA controls, workflow refinement, and improved SOP adherence.
- Led a WhatsApp customer reactivation campaign targeting 5,000+ inactive users, generating a 12% reactivation/conversion rate.
- Managed complex customer cases involving bookings, payments, onboarding, KYC verification, and service issues, coordinating with technical and operational teams to drive resolution.
- Supported day-to-day customer operations and team performance through escalation handling, workflow monitoring, issue prioritization, and service-quality follow-up.
- Contributed to process standardization by identifying recurring operational gaps and translating customer issues into actionable improvements.

Senior Customer Support Specialist — Customer Service & Digital Support — Xceed (Telecom Egypt BPO Partner)

Sep 2021 – Apr 2025 | Nasr City, Egypt

- Managed 1,000+ customer requests monthly, maintaining a 95% FCR rate while ensuring consistent service quality and adherence to operational standards.

- Handled 200+ complex customer complaints monthly, coordinating escalations and resolution activities while maintaining clear customer communication.
- Supported relationships with 50+ key accounts, helping maintain service quality, customer satisfaction, and effective issue resolution.
- Coached and mentored 50+ junior Customer Service Representatives, contributing to a 15% improvement in overall team performance.
- Improved customer service workflows and operational processes, contributing to a 30% reduction in resolution time.
- Managed and organized 5,000+ customer records, improving information accessibility and supporting faster case handling and resolution.
- Monitored customer issues and recurring service challenges, supporting operational follow-up and continuous improvement initiatives.
- Supported multi-channel customer operations while maintaining compliance with established procedures, service standards, and performance expectations.

Customer Support Specialist — Digital Support & Social Operations — Xceed (Telecom Egypt BPO Partner)

Dec 2018 – Aug 2021 | Nasr City, Egypt

- Resolved 500+ customer issues monthly while maintaining an 85% FCR rate across digital customer support channels.
- Reduced customer escalation rates by 25% through structured troubleshooting, root-cause identification, and effective issue resolution.
- Produced weekly and monthly customer feedback and operational reports, identifying recurring issues, customer pain points, and improvement opportunities.
- Maintained Help Center content and supported social media operations, improving customer self-service and communication consistency.
- Collaborated with internal teams to escalate recurring customer issues and support improvements to customer-facing processes.
- Maintained high service quality while managing multiple customer interactions and digital support workflows.

Customer Care & Technical Support Specialist — Xceed (Telecom Egypt BPO Partner)

Jun 2017 – Nov 2018 | Nasr City, Egypt

- Handled 150+ daily customer inquiries and resolved 100+ complex technical issues weekly, achieving approximately 90% resolution rate.
- Processed 75+ customer orders and forms weekly with 99% accuracy, maintaining strong data-quality and service standards.
- Diagnosed technical and service-related issues, provided structured troubleshooting, and managed appropriate escalations.
- Maintained clear customer expectations throughout the resolution process while balancing service quality, accuracy, and efficiency.
- Developed a strong foundation in customer communication, technical problem solving, escalation management, and service operations.

Technical Support Specialist — Alhekma Lab

Jan 2016 – Jan 2017 | Cairo, Egypt

- Provided technical support and troubleshooting for hardware, software, and computer systems.
- Installed, configured, and maintained operating systems and software applications.
- Diagnosed technical issues and supported users through effective problem-solving and communication.

Technical Support Specialist — Ehab Center

Jan 2015 – Jan 2016 | Cairo, Egypt

- Provided technical support and troubleshooting for hardware, software, and computer systems.
- Installed and configured computer systems and software applications.
