PROFESSIONAL EXPERIENCE

Customer Operations Specialist — Waves (Chalet & Yacht Rental Platform, Kuwait)

Apr 2025 – Present | Remote / Kuwait & GCC

- Manage end-to-end customer experience and operational support for a marine leisure booking platform serving Kuwait and GCC customers, covering booking, payment, onboarding, and post-booking journeys.
- Achieved 94% First Contact Resolution (FCR) for complex booking discrepancies and payment issues, reducing unnecessary escalations.
- Resolved 95% of high-level customer escalations while maintaining customer relationships and service recovery standards.
- Developed and implemented standardized SOPs, reducing operational process deviations by 30% and improving service consistency.
- Contributed to improving the mobile app rating from 3.8 to 4.5 within 3 months by identifying customer pain points and driving targeted CX improvements.
- Led a WhatsApp reactivation campaign reaching 5,000+ inactive users and generating a 12% reactivation/conversion rate.
- Earned 35+ personalized 5-star customer feedback mentions from GCC customers for professionalism, responsiveness, and issue resolution.
- Managed customer onboarding and KYC verification workflows and coordinated with internal teams on booking, payment, and operational issues.
- Reduced Average Handling Time (AHT) by 45 seconds across high-volume chat and voice interactions while maintaining service quality.

Customer Service Specialist – Technical Support & Digital Support — Xceed (Telecom Egypt BPO Partner)

Sep 2021 – Apr 2025 | Nasr City, Egypt

- Managed 1,000+ monthly customer requests across Phone, Email, and Chat while maintaining 95% First Contact Resolution (FCR) and consistent service quality.
- Handled 200+ complex customer complaints monthly through tailored troubleshooting, escalation management, and timely resolution while sustaining 90%+ CSAT.
- Managed relationships with 50+ key accounts, supporting customer satisfaction, issue resolution, and service continuity.
- Coached and mentored 5 junior CSRs through targeted coaching and performance support, contributing to a 15% improvement in team performance.
- Managed and organized 5,000+ customer records, improving data accessibility and contributing to a 30% reduction in resolution time.
- Monitored service quality and CX metrics, identified performance gaps, and supported targeted improvement initiatives.

Customer Support Specialist — Digital Support & Social Operations — Xceed (Telecom Egypt BPO Partner)

Dec 2018 – Aug 2021 | Nasr City, Egypt

- Resolved 500+ customer issues monthly across digital support channels while maintaining 85% First Contact Resolution (FCR).
- Helped reduce recurring customer complaints by approximately 20% through targeted troubleshooting, root-cause identification, and preventive guidance.
- Used structured diagnostic questions and system checks to identify root causes and enable faster, more accurate issue resolution.
- Frequently de-escalated frustrated customers through empathy, ownership, clear communication, and effective service recovery.
- Followed up on escalated cases and trouble tickets, coordinating with relevant teams to support timely resolution and maintain customer expectations.
- Shared effective troubleshooting solutions with colleagues, contributing to more consistent handling of recurring and complex customer issues.
- Supported new colleagues with systems, processes, diagnostic questioning, troubleshooting, difficult-customer handling, and challenging case reviews.
- Participated in team discussions to identify recurring customer issues, analyze root causes, and develop standardized solutions.

Customer Care & Technical Support Specialist — Xceed (Telecom Egypt BPO Partner)

Sep 2017 – Dec 2018 | Nasr City, Egypt

- Delivered high-volume Customer Care and Technical Support, handling 150+ daily customer inquiries and resolving 100+ complex technical issues weekly.
- Achieved approximately 90% resolution rate through structured troubleshooting, customer communication, and effective escalation management.
- Processed 75+ customer orders and forms weekly with 99% accuracy while maintaining strong data-quality and service standards.
- Diagnosed customer and technical issues, maintained clear expectations throughout the resolution journey, and coordinated appropriate escalations.

Technical Customer Support Specialist — Xceed (Telecom Egypt BPO Partner)

Jun 2017 – Aug 2017 | Nasr City, Egypt

- Supported landline internet service activation for 100+ new customers, ensuring accurate setup and effective customer guidance.
- Diagnosed internet service issues and achieved 80% First Contact Resolution (FCR) through structured technical troubleshooting.
- Handled 40+ incoming customer calls daily with an average handling time of 12 minutes while providing technical and advisory support across phone and electronic channels.

Technical Support Specialist — Alhekma Lab

Jan 2016 – Jan 2017 | Cairo, Egypt

- Provided technical support for computers, software, and operating systems, responding to client and employee technical inquiries.
- Installed and configured computers, devices, software, and operating systems to support day-to-day operations.
- Followed up on computer maintenance requirements and prepared technical reports with recommended solutions.
- Prepared and delivered employee training on new systems and software, supporting effective adoption and day-to-day use.

Technical Support Specialist — Ehab Center

Jan 2015 – Jan 2016 | Alexandria, Egypt

- Installed, configured, and maintained hardware, software, network devices, and workplace systems.
- Administered Windows Server environments, Hyper-V machines, desktops, printers, routers, switches, firewalls, phones, and attendance systems.
- Troubleshoot user-reported technical issues and monitored system, hardware, and software performance.
- Performed data backups and supported disaster recovery activities while providing technical support to maintain reliable day-to-day operations.
